EXECUTIVE SUMMARY

- Relevant skills required in the field of IT and business consulting are ever-changing and evolving
- It is important to identify future skill requirements and trends to keep pace with changing technologies and remain competitive.
- This presentation will show current and future trends in Programming Languages, Databases, Platforms and Webframes.
- Consequently, the aim in identifying future skill requirements and trends is to help the firm make more informed data-driven hiring and budgetary decisions.

INTRODUCTION

- This presentation has been created for stakeholders and business decision makers within the global IT and business consulting services firm.
- The presentation will help identify future skill requirements in the global IT sector necessary for the firm to keep pace with changing technologies and remain competitive.
- Recommendations will be stated based on the analysis.

METHODOLOGY

- Using a modified subset of the Stackoverflow dataset, the data was wrangled in order to remove duplicates, impute missing values and normalize data.
- Next, the data underwent exploratory analysis in order to find the distribution of data, presence of outliers and determine the correlation between different columns in the dataset.
- The data was then used to visualize the distribution, the relationship between two features and the composition and comparison of data.
- Finally after downloading two files, which are also a modified subset of the Stackoverflow dataset, Cognos Dashboard Embedded(CDE) was used to create three slides:
 - Current Technology Usage
 - Future Technology Trends
 - Demographics

RESULTS

PROGRAMMING LANGUAGE TRENDS

Current Year

Top 5 Language Worked With

Next Year

Top 5 Language Desire Next Year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- JavaScript and HTML/CSS continue to be the top two most popular programming languages for this year and next.
- Python and TypeScript have gained more interest for next year.
- Whereas interest in SQL and Bash/Shell/Powershell has decreased.

Implications

- You can continue to employ a similar number of people skilled in JavaScript and HTML/CSS.
- You can employ more people skilled in Python and Typescript
- You can employ less people skilled in SQL and Bash/Shell/PowerShell.

DATABASE TRENDS

Current Year

Top 5 Database Worked With

Next Year

Top 5 Database Desire Next Year

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- Interest in MySQL, Microsoft SQL Server and SQLite has decreased for next year.
- Interest in PostgreSQL and MongoDB have increased compared to the current year.
- There is gained interest in Redis and Elasticsearch for next year.

Implications

- You can employ less people skilled in MySQL, Microsoft SQL Server and SQLite.
- You can employ more people skilled in PostgreSQL and MongoDB.
- You can employ more people skilled in Redis and Elasticsearch.

Gender
● Woman ● Man

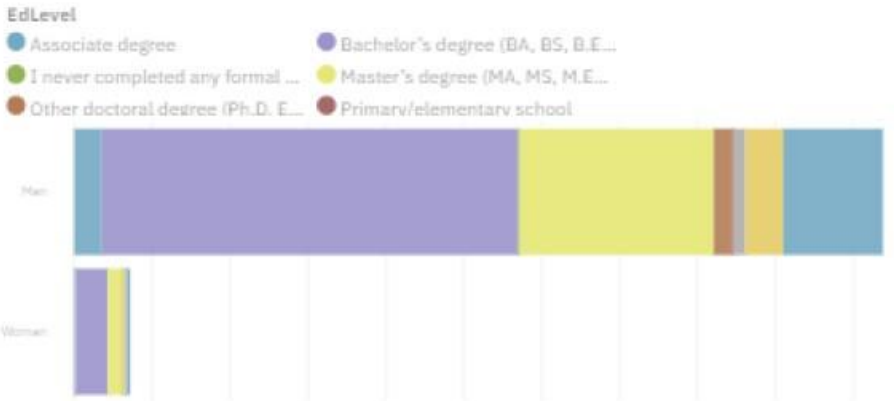

Respondents by Age

Respondents by Country

Respondent Count by Gender, classified by Formal Education Level

DISCUSSION

OVERALL FINDINGS & IMPLICATIONS

► Findings

- ◀ More than 90 percent of those surveyed are men.
- ◀ The average age of the respondents is 30.
- ◀ Typescript is gaining significant interest and
- Python continues to grow as well.
- ◀ Redis, Elasticsearch, PostgreSQL and MongoDB are gaining more interest.
- ◀ Interest Slack and Windows is dropping significantly.
- ◀ Vue.js is gaining substantial interest and React.js continues to grow as well.

Implications

- ◀ The software space continues to be male-dominated.
- ◀ It still seems difficult to find highly experienced
- personnel in the field of development.
- ◀ You can continue to staff enough Javascript and HTML/CSS but employ more people skilled in Python and Typescript.
- ◀ You can employ more people skilled in PostgreSQL, MongoDB, Elasticsearch, and Redis.
- ◀ You can continue to staff enough ASP.NET but employ more people skilled in Vue.js and React.js.
- ◀ You can continue to staff enough Linux, employ more people skilled in Docker, AWS and Android, but make reductions to Slack and Windows.

CONCLUSION

- ← You can make adjustments in staff for those skills no longer in demand.
- ← You can carve out budget in order to hire additional staff with skills needed to fill any gaps.
- ← You can set aside budget or put a program in place to upskill those already employed.
